

Hollow M54 Item Catalogue

Generated: 2026-04-30 17:42:03 UTC

Summary

M54 adds five special passive ranged-build items and a full pickup catalogue.

Standard combat/reward rooms remain sparse: 2% Golden Chest, 12% Normal Chest, 38% loose coins, 24% HP refill, 24% no reward.

M54 projectile passives appear only in treasure rooms, boss rewards, and hub shops.

Golden chests keep the M52 rule: card/sustain/economy only, no M54 passive item drops.

M54 Projectile Passive Items

Double-Barrel | Passive Item | Rare | stack 1 | Shoots 2 full-damage projectiles side-by-side | Treasure/Boss/Shop

Triple-Shot | Passive Item | Rare | stack 1 | Shoots 3 full-damage projectiles: center plus +/-30 degrees | Treasure/Boss/Shop

Quad-Shot | Passive Item | Epic | stack 1 | Shoots 4 full-damage projectiles: two straight plus +/-30 degrees | Treasure/Boss/Shop

Power-up | Passive Item | Rare | stack 1 | Ranged projectile damage x2 and player shots become red | Treasure/Boss/Shop

Fire-rate Up | Passive Item | Uncommon | stack 3 | +1 ranged light shot per second per stack; heavy cooldown unchanged | Treasure/Boss/Shop

Projectile Passive Rules

Double-Barrel, Triple-Shot, and Quad-Shot do not stack together; the strongest owned pattern wins.

Power-up is non-stackable and applies one x2 ranged projectile damage multiplier.

Fire-rate Up stacks to 3 and affects ranged light attacks only.

Multi-shot projectiles each keep full damage.

Existing Reward Sources

Treasure rooms: build-changing rewards, M54 projectile passives, selected currencies/items from the active item-capable pool.

Boss rewards: boss reward pool plus M54 projectile passives; boss rewards remain direct rewards after clear.

Hub shops: heal offer plus deterministic reward offers from eligible item/weapon pools; M54 passives can appear as item offers.

Standard rooms: loose coins, HP refill, Normal Chest, Golden Chest, or no reward only.

Chests, Coins, Heals, And Key-Like Pickups

Normal Chest Chest Common Interact to open; 75% coins worth 8-14, 25% HP refill 12% standard-room outcome
Golden Chest Chest Rare Interact to open; better coins, HP+coins, or passive/consumable card+coins 2% standard-room outcome
Copper Coin Coin Common Value 1 Loose coins, chests, barrels
Silver Coin Coin Rare Value 5 Loose coins, chests, barrels
Gold Coin Coin Very Rare Value 10 Loose coins, chests, barrels
HP Refill Heal Common Restores up to max HP Standard rooms, chest contents, shop heal
Boss Key Key-Like Boss Unlocks the boss path in a branch Branch progression

Catalogue Notes

Exact standard-room percentages are authored in ProceduralRewardResolver M52 logic.
Treasure, boss, and shop item odds are deterministic pool rolls; exact chance depends on active pool size and shop roll context.
This PDF is generated for design and QA visibility; gameplay remains driven by reward pools, save state, and runtime controllers.
