

Hollow M75: Enemy Attacks + Senses V1

Design-contract catalogue for contact lunges, local Senses, awareness states, and separate melee attack pressure. The runtime remains local: no pathfinding, no obstacle line of sight, no alert sharing, no saved awareness state, and no boss behavior changes.

Runtime Contract

Rule	Contract
Enemy Attacks	Contact-capable enemies can lunge from preferred-band edge.
Senses	Sight is radius plus cone angle; hearing is radius stimulus response.
Awareness	Unaware, Suspicious, Alerted, Engaged; Engaged persists until reset.
lunge	0.22s windup, 0.18s active, 0.75m distance, 1.15s cooldown.
budget	Melee lunges use a separate 0.30s room budget.
unchanged	Ash Charger charge, Bone Turret ranged role, and bosses stay behavior-stable.

Deferred Work

Obstacle line of sight, stealth UI, pathfinding, squad tactics, alert sharing, saved awareness state, and boss behavior changes are deliberately deferred.
