

Hollow M76: Enemy Attack Profiles + Impact Catalogue V1

Bestiary-style attack catalogue for authored damage classification, force class, knockback, guard recoil, cooldown/range, and stability interaction. Runtime AI stays behavior-specific.

Impact Contract

Topic	Contract
Attack Profiles	Separate ScriptableObject assets are the source of truth.
Damage Type	Uses DamageClassification: channel, delivery, element, force class.
knockback	Each profile authors player knockback meters and guard recoil multiplier.
stability	Existing ActiveStability thresholds reduce or cancel knockback after guard recoil.
Guard	Perfect parry prevents recoil; blocked non-parry hits use reduced recoil.

Hollow Star Larva	Desperation	RadialProjectile	Elemental Projectile Cosmic	Heavy	StrongProjectile	2	0.65m	x0.35	3.10s / 6.00m	Cosmic desperation storm.

Compatibility

No save schema change. Elemental resistance is intentionally deferred. Ash fire and Hollow Star cosmic attacks are authored now for future systems and catalogue clarity.
