Lantern Soul Ring lantern_soul_ring	Runtime: RadialProjectile Element: Soul Damage: 1	ten-shot stationary ring
Lantern Curse Fan lantern_curse_fan	Runtime: FanProjectile Element: Cursed Damage: 1	stationary curse fan

Runtime Contract

- Beam deals elemental lane damage only at the active point and uses profile range, arc, knockback, and guard recoil.
- PhaseMove is non-damaging local movement with windup, active, and recovery; it is not pathfinding.
- Soul and Cursed elements are metadata for future resistance/status systems; M87 does not add statuses.
- Magic projectiles remain budgeted. Curse field uses area timing and does not restore passive contact damage.
- M88 should add navigation behind an adapter so these actions can later choose better destinations and lanes.
