

M77: Critter Roster + Ballistic Creature Behaviors V1

Spitting Pod, Rat, and Spider join the enemy roster with intelligence, senses, movement identity, Physical natural attacks, and early encounter coverage. The Pod uses a visible ballistic projectile arc with a small splash landing; Rat and Spider use readable chaotic critter behavior.

Behavior Contract

Spitting Pod is stationary, blind, hearing-driven, and budgeted as a ranged attacker. Rat is territorial: it roams, warns, delays its first bite, and retreats after damage. Spider is skittish: it startles, then chooses readable fight-or-flight decisions with fast hop or bite attacks.
