

M62: Run Readability + Beta HUD Cleanup

Generated UTC: 2026-05-01T00:42:29.486813+00:00

Status: Fallback report generated outside Unity because batchmode was blocked by Unity licensing initialization.

Action: Re-run Hollow/Generation/Generate Milestone 65 Assets from Unity to replace these fallback reports with asset-scanned reports, BetaContentLock_M63.asset, and BetaQaChecklist_M64.asset.

This document is useful for handoff/planning, but it is not a passing Unity validation report.

Source Notes

M62 defines the beta HUD layout.

- Left: player build sidebar.
- Top-right: graphical minimap only.
- Top-center: world/branch framing and boss bar.
- Center-right: pickup reveal card and short toasts.
- Developer/debug text is hidden by default and must not overlap player build stats.
