

M63: Beta Content Selection Lock

Generated UTC: 2026-05-01T00:42:29.486813+00:00

Status: Fallback report generated outside Unity because batchmode was blocked by Unity licensing initialization.

Action: Re-run Hollow/Generation/Generate Milestone 65 Assets from Unity to replace these fallback reports with asset-scanned reports, BetaContentLock_M63.asset, and BetaQaChecklist_M64.asset.

This document is useful for handoff/planning, but it is not a passing Unity validation report.

Source Notes

M63 freezes the beta content whitelist.

- Characters, weapons, reward pools, rooms, bosses, challenges, and allowed prototype notes are stored in `BetaContentLock\_M63.asset`.
- The generated PDF is the beta content catalogue for Martin/Rafal QA.
- Prototype content may remain only when M56 marks it safe, visible, and catalog-bound.
