

M64: Vertical Slice Beta Lock Gate

Generated UTC: 2026-05-01T00:42:29.486813+00:00

Status: Fallback report generated outside Unity because batchmode was blocked by Unity licensing initialization.

Action: Re-run Hollow/Generation/Generate Milestone 65 Assets from Unity to replace these fallback reports with asset-scanned reports, BetaContentLock_M63.asset, and BetaQaChecklist_M64.asset.

This document is useful for handoff/planning, but it is not a passing Unity validation report.

Source Notes

M64 creates the beta lock gate.

- The gate checks content lock, QA checklist, ArtPass calibration, Developer Lab coverage, beta content catalogue, and platform build environment status.
- Environment-blocked builds are reported explicitly.
- Reports are written to `output/reports/m64\_vertical\_slice\_beta\_lock\_gate.\*` and `output/pdf/Hollow\_M64\_Vertical\_Slice\_Beta\_Lock\_Gate.pdf`.
